

I recently heard that the FCC could possibly remove Christian Broadcasting. I am shocked that this would even be considered! Songs about hatred, violence, drugs, sex, etc is not being threatened, yet Christian music is?? Christian music is inspirational, rather than about hatred, drugs, sex, etc. PLEASE do not take this away from our airways. I am a 41 year old Mother who loves Pop, my kids love Pop and rock, for the first time, they are also listening to Christian Contemporary. I can see NO negative impact it could possibly have on them or anyone for that matter. FREEDOM OF SPEECH comes to mind. We in America have that privilage, and to those who Christian music offends, change the station and choose your own music.
